

## World's Largest Cat Underway

 *Gemini*, the 144ft catamaran designed by Van Peteghem Lauriot Prevost (VPLP) is now under construction at Derecktor Shipyard's Bridgeport, Connecticut facility. With a 174ft carbon fiber rig, *Gemini* will be the world's largest sailing catamaran. Below the towering rig are three decks topped by the 1000 square feet flybridge, which features twin helms as well as a sundeck with all the essentials: sunpads, spa pool, lounge area, bar, BBQ grill and al fresco dining for twelve. She will also be equipped with full diving gear and a 28ft tender for dive excursions.

Michael Leach Design Ltd. are responsible for her elegant interior, which includes five en suite cabins highlighted by a sumptuous 300sqft

owner's suite. The eight-person crew will be accommodated below decks to starboard with galley, laundry, mess, and other essentials at hand.

*Gemini* is expected to launch in the fall of 2007 and will be open to charter from 2008.
