

# Derecktor 23.5m Fast Patrol Boat

---

## Fast Patrol Vessel for Venezuelan National Guard

One of a fleet of twelve patrol boats built for the Venezuelan National Guard. These Derecktor designed boats were built from 1980 to 1983. The deckhouse has a clear 360-degree visibility for all weather navigation. Accommodations are provided below the main deck with a galley, mess and cabins. There is an individual cabin with bathroom for the captain and four shared cabins with two bathrooms for the eight crew members. This, coupled with an effective range of 600 nautical miles, allows the vessel to be deployed for extended coastal patrol duty.

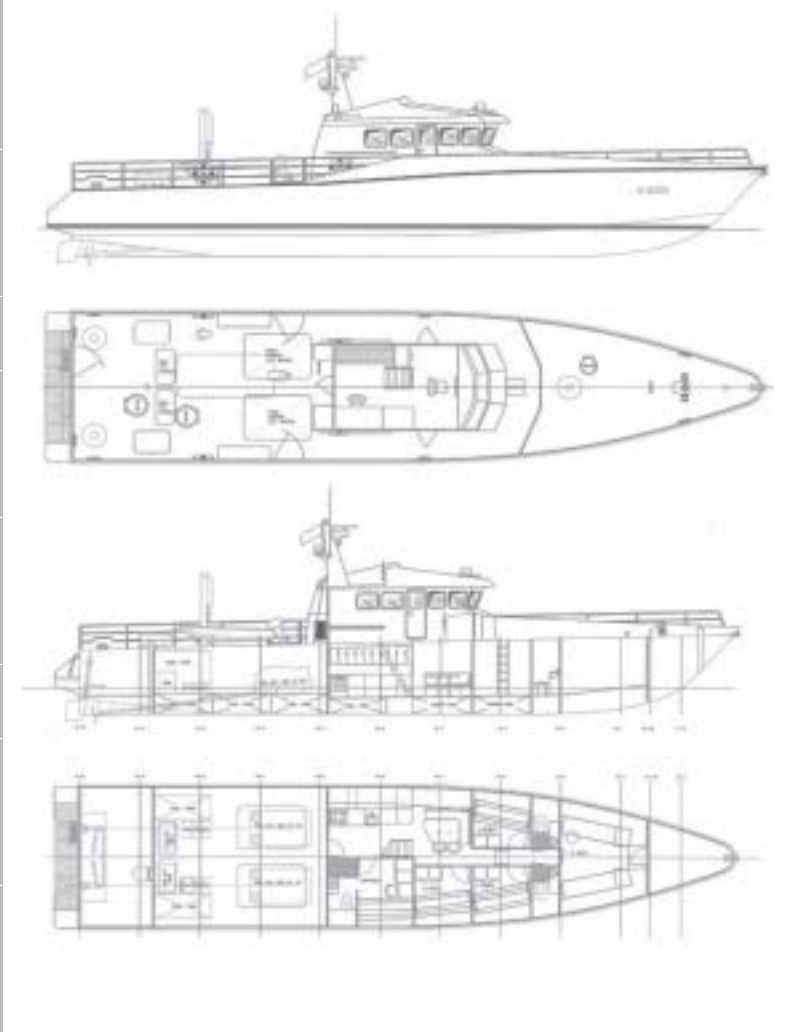

## DERECKTOR SHIPYARDS

Since 1947

**Speed:** 26.7 knots  
**Hull Construction:** Aluminum  
**Engine:** 2 x Detroit Diesel 12V9MTI

Derecktor has established itself as a leading manufacturer of high-speed craft in North America. Among the significant factors that have contributed to the success of the Derecktor built vessel are the very high standards of aluminum fabrication and machinery installation as well as the weight conscious approach to vessel construction.
